#### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Double Patenting rejection over US Patent No. 5,372,907 published December 13, 1994 has been overcome due to the Terminal Disclaimer filed December 16, 1996.

The claimed invention is drawn to a radiation-sensitive composition comprising (1) a resole resin, (2) a novolac resin, (3) a haloalkyl-substituted s-triazine and (4) an infrared absorber and a lithographic printing plate comprising this radiation-sensitive composition.

The closest prior art reference Garth (Great Britain 2,082,399) teaches a lithographic plate comprising a resole resin, a novolak resin, a quinone diazide and a dyestuff (a Crystal Violet dye). Garth does not teach the claimed haloalkyl-substituted s-triazine and the infrared absorber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
